dear parents...

As an educator, in Canada and overseas, I have created a number of food-security related programs for school students of all ages; from Kindergarten to University. Therefore, it has been a great pleasure to have created the summer camp program. A program where children can learn, in mainly a hands-on manner, about the many benefits associated with growing (and eating!) healthy food. Hopefully, your child can attend this years summer camp.

Kind Regards,
Dave Friend aka Mr. Organic
