

## **Holland Farm and Al's Landscape Farm Campaign**

The partnership of Holland Farm and Al's Landscape is looking to relocate to a reasonably priced property for long term lease in or around the Victoria area.

For the last eight years Holland Farm has been producing natural, pesticide free produce. We are active in local farmers markets including the ICC farmer's market in Bastion Square as well as being enthusiastic advocates for local sustainable farming. We provide produce to a number of local restaurants and have had a garnered attention from local media regarding our farming venture and practices.

Al's Landscape is a company that engages in sustainable landscaping including the wholesale propagation of ornamental plants for his clientele.

The property we are looking for:

- Must be least 2 acres with secure accommodation or the ability to park two RV's on the property.
- Must have power and water on the premises.
- Must be livestock friendly as our livestock are an integral component of our farming practice. They are used for land clearing, composting and insect control among other things. We have our own coops, fencing and housing for the animals.
- Must be regulated for the growing of tomatoes as we specialize in heirloom tomato production. We are equipped with all the greenhouse infrastructure we require.
- We are able to provide you with viable farm receipts that will assist you in obtaining farm status on your land.
- Al's Landscaping is fully equipped with all the standard landscaping equipment including a dump truck.

Personal and professional references available upon request.
