

## **Getting Involved in CRFAIR**

If you or your organization is interested in getting involved in CR-FAIR there are many ways to do so. The most direct way is to attend the “Roundtable”, a monthly forum for exchange of information on issues and projects related to food security and sustainable food systems in the CRD. Following the roundtable is our Steering Committee meeting and people are welcome to stay and attend.

There are also two action groups that you can get involved in, one is focused on policy and planning and the other is on education and awareness. We are really looking for some folks to join the education and awareness action group as we would like to expand our work in this area in the coming year.
