BOARD OPPORTUNITIES (volunteer)  
~~~~~

Seeking: Volunteer Board Members
Organization: LifeCycles Project Society
<http://www.lifecyclesproject.ca>
Location: Victoria, BC

DETAILS:

We are seeking dynamic individuals to fulfill key roles on our Board of Directors, as the Treasurer, Legal Advisor, or Director-at-Large.

LifeCycles is a leading nonprofit organization dedicated to cultivating awareness and initiating action around food, health, and urban sustainability in the Greater Victoria community. We work proactively to promote and create community gardens, conduct research, and offer educational activities and youth skills development programs.

Through partnerships we strengthen individual, community and global health. To learn more about us, visit our website or our new Facebook group.

LifeCycles functions as a "working" board in support of the LifeCycles staff (executive director and approximately 10 staff). The Board has established several strategic areas of focus, and directors are expected to take on at least one initiative or activity area. We invite board members from across the community, and have a particular need and opportunity for individuals with expertise in fundraising, social marketing and entrepreneurship. It is an asset if candidates have some experience in the non-profit-sector and a strong interest in food security and community development. Creativity, a collaborative approach and a sense of fun are definite pluses!

Time commitment ranges, with an average of 8-15 hours per month including the Board meeting. Board members are asked to make a one-year commitment to ensure program continuity. There are plenty of opportunities to both apply your existing skills and take on new challenges!

Please send expressions of interest to:

Tracy James, Chair
