Are you curious about how those glorious vegetables come to be piled high at the Madrona farm stand? Would you like to see the mosaic of ponds, forest and lush cultivated fields that comprise Madrona Farm? David and Nathalie Chambers are stewarding the Farm that The Land Conservancy is now trying to protect in perpetuity.

Get up close and personal with this 27-acre farm as Nathalie will be conducting tours of the property every other Saturday. Learn more about the acquisition to save this important ecological and agricultural treasure, and buy some freshly picked vegetables at the same time.
