He's a passionate gardener, inspiring philosopher and anti-GMO activist. "Gardens of Diversity" will touch on the role of gardeners, small and large, in the preservation of regional crop genetics, and the creation of new crop varieties as an ongoing process.

Keynote: Noted Vancouver florist Thomas Hobbs is moving on. In "Creating or Curating" he revisits his old garden and then shares his visioning for his new 20 acre property in Langley. What will this creative and provocative plantsman create next?
